Carnisol®
from L-Carnipure®

PureGels® Carnisol® is our premier patented formulation of L-Carnitine, a compound which is naturally produced in the body from amino acids. Human clinical trials indicate that taking L-Carnitine prior to exercise may increase energy and endurance, without accelerating heart rate.* It also promotes efficient cardiovascular function, exercise recovery, and facilitates fat breakdown - without a loss of lean muscle tissue.* PureGels® Carnisol® is the only L-Carnitine available in a soft gel.

PureGels® Natural Supplements are available at these and other fine retailers:
