Attaining and sustaining a Healthy Body Composition is an important element of essential balance for body and mind. PureGels® is passionate about sharing this premium, competitively priced, all-natural soft gel formula. Clarinol™ CLA is helping define the new paradigm for long-term maintenance of a healthy body and a more fulfilling, vibrant lifestyle.

## 10 Reasons to Supplement with PureGels® Clarinol™ CLA

1. PureGels® Clarinol™ CLA offers a natural path to a healthier, toned body, which goes far beyond old misconceptions that Healthy Body Composition is all about weight loss.
2. Clarinol™ CLA is a premium quality CLA (Conjugated Linoleic Acid) in a soft gel.
3. Clarinol™ CLA is a high potency formula containing a minimum of 75% pure CLA per 1000 milligrams.
4. CLA is a 'good' fat, one of the Omega-6 fatty acids. Clarinol™ CLA is naturally derived from safflower oil.
5. Clarinol™ CLA helps achieve the proper ratio of muscle to fat and promotes optimal BMI (Body Mass Index). It is designed to help improve body composition by reducing body fat while increasing muscle tone.
6. Combined with balanced diet and moderate exercise, PureGels® Clarinol™ CLA facilitates fat-burning and building and retaining of lean muscle tissue.
7. Clarinol™ delivers measurable results in as little as 4-8 weeks.
8. Studies on Clarinol™ CLA in particular support these results. These studies have shown measurable fat losses and increases in lean muscle mass.
9. The most recent results from a just completed Clarinol™ CLA study demonstrate that Clarinol™ CLA reduces body fat mass in the abdomen and legs in women, and in the abdomen in men.
10. Another study demonstrated that Clarinol™ CLA is safe at levels of 6 grams per day for up to one year in obese healthy subjects.
